†This program is accredited by the Computing Sciences Accreditation Board (CAC/ABET). To qualify for graduation, a student must earn a grade of "C" or better in all CMPS, MATH, STAT, and EECE courses which are applied to the degree, as well as all concentration electives.

<sup>1</sup> On the third grade of "W", "D", or "F" in any of these courses, the student will not be permitted to continue pursuing a major in Computer Science at the University of Louisiana at Lafayette.

<sup>2</sup> To be chosen from Anthropology, Criminal Justice, Geography, Economics, Political Science, Psychology, or Sociology. At least 3 hours of behavioral science must be at the 200-level or above.

<sup>3</sup> Selection may depend on concentration.

<sup>4</sup> To be chosen from DANC, MUS, THEA, or VIAR, ARCH or Design.

<sup>5</sup> Any course in ENGL or MODL that focuses on literary texts.

<sup>6</sup> Must include both biological and physical sciences. All three courses must be courses for science majors. One of these courses must be taken with its associated lab. Six lecture hours must be in the same discipline.

<sup>7</sup> Concentrations: Video Game Design and Development, Information Technology, Scientific Computing, and Computer Engineering. A list of courses that satisfy concentration electives is available in the CMPS office.

<sup>8</sup> Must be a course for majors.

# CONCENTRATION AREAS & REQUIREMENTS

2018

Revised: January 2019

## Computer Engineering

MATH 302/350 Calculus III / Differential Equations

EECE 240 Digital Systems

EECE 355 Circuits and Signals

EECE<sup>1</sup>

EECE<sup>1</sup>

<sup>1</sup> Chosen from EECE 233, 335, 340, 413, 434, 464

Note: This concentration requires PHYS 201/207, 202/208 for the physical science lectures.

## Information Technology

CMPS<sup>1</sup>

CMPS<sup>1</sup>

ACCT 201 Principles of Accounting I

ELECT<sup>2</sup>

ELECT<sup>2</sup>

<sup>1</sup> Chosen from CMPS 358, 359, 360, 420, 452, 490, 497, 499, or INFX 240, 320, 450, 451

<sup>2</sup> Choose from ACCT 202, MGMT 320, 350, 390, BLAW 310, 415, 425, ECON 300, 320, 330, BSAT 303

## Scientific Computing

CMPS 415 Graphics

CMPS/MATH<sup>1/2</sup>

MATH 302 Calculus III

MATH 350 Differential Equations

MATH<sup>2</sup>

<sup>1</sup> Chosen from CMPS 490, 497, 499 or STAT 417

<sup>2</sup> Chosen from MATH 435, 440, 450, 455, 475, 481, 483, 487, 491, 493, 495

## Video Game Design & Development

CMPS 327 Introduction to Video Game Design & Development

CMPS 427 Video Game Design & Development

Choose 3 from the following: CMPS 358, 359, 360, 415, 420, 452, 490, 497, 499

CMCN 365

ENGL 223, 325, 327

INFX 210

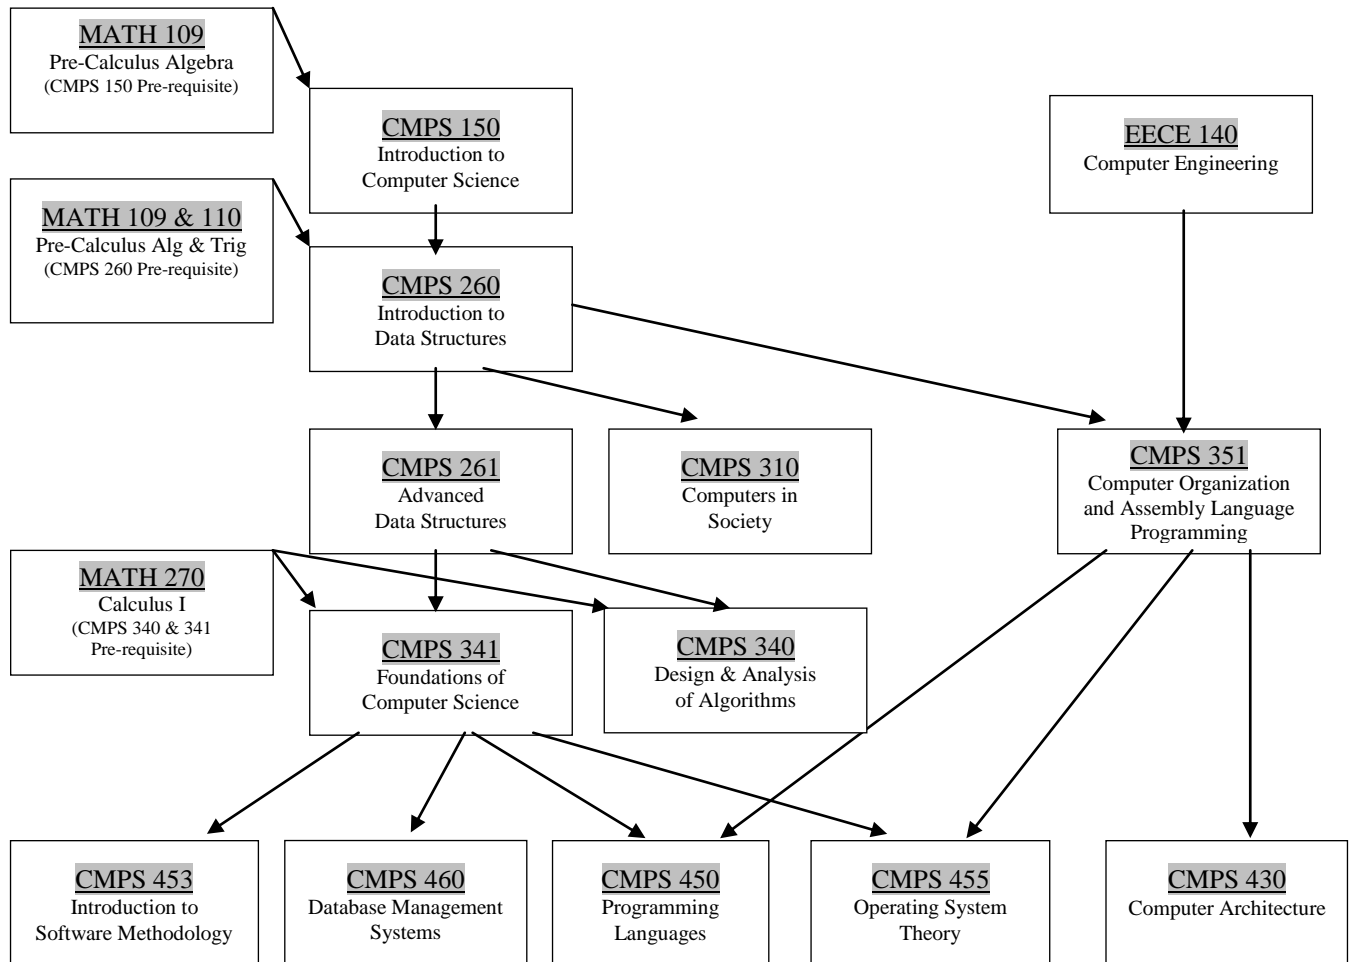

THEA 251, 300

VIAR 235, 335, 365, 366, 465

Note: This concentration requires PHYS 207 (or PHYS 201) as a SCI elective.

## Summary of Computer Science Requirements

### Computer Science Core and Pre-requisite Structure

## Computer Science Electives

<b>CMPS 327</b> Introduction to Video Game Design and Development	<b>CMPS 352</b> Scientific Computing	<b>CMPS 353</b> Principles of File Organization	<b>CMPS 358</b> C# / .Net Software Development	<b>CMPS 359</b> Topics in Software Development (1 - 3 Credits)
<b>CMPS 360</b> Programming in Java	<b>CMPS 415</b> Computer Graphics	<b>CMPS 420</b> Artificial Intelligence	<b>CMPS 427</b> Video Game Design and Development	<b>CMPS 440</b> Theory of Computation
<b>CMPS 451</b> Compiler Construction	<b>CMPS 452</b> Human-Computer Interface Design	<b>CMPS 490</b> Senior Project	<b>CMPS 497/498</b> Special Projects	<b>CMPS 499</b> Special Topics in Computer Science

## SCIENCE ELECTIVES

### *Physical Sciences Lectures*

CHEM 107	3 hrs	
CHEM 108	3 hrs	
GEOL 105	3 hrs	
GEOL 106	3 hrs	
PHYS 207	3 hrs	
PHYS 208	3 hrs	
PHYS 201	4 hrs	**
PHYS 202	4 hrs	**

### *Biological Sciences Lectures*

BIOL 121	3 hrs	
BIOL 122	3 hrs	
BIOL 110	3 hrs	**
BIOL 111	3 hrs	**

### *Physical Sciences Labs*

CHEM 115	2 hrs	(pre-requisite is CHEM 108)
GEOL 107	1 hr	
GEOL 108	1 hr	
PHYS 215	1 hr	

### *Biological Sciences Labs*

BIOL 123	1 hr	
BIOL 112	1 hr	
BIOL 113	1 hr	

\*\* these science lectures are those required by PHYS and BIOL majors

A student must select 9 hours of lecture, where at least one biological science and one physical science are included in the 9 hours. A student must also select one respective lab. Six of the nine lecture hours must be in the same science.

Students in the Computer Engineering concentration must take PHYS 207/208 for 6 of their 9 lecture hours. They are allowed, however, to take PHYS 201/202, which is the calculus-based sequence.

Note:

Students in the Computer Engineering concentration must earn a grade of C or better in PHYS 202 if they choose EECE 335 as one of their concentration electives.

### **NOTES:**

Students who wish to enroll for a Special Project (CMPS 497 or 498) must have completed CMPS 341 and CMPS 351 and have an overall GPA of 2.5 or better.

Students who wish to enroll in the Senior Project course (CMPS 490) must have completed 3 hours of 400-level CMPS courses, with a grade of 'C' or better, and permission of instructor.

### NOTE:

If a student takes GEOL 111, this is a GEOL lecture and lab course in one. It is four (4) credit hours.

It is equivalent to GEOL 105+7

## **LITERATURE ELECTIVES**

ENGLISH – Any ENGL course that focuses on literary text. Linguistics, vocabulary development, and language courses do not qualify.

## **ARTS ELECTIVES**

DANCE – DANC 101, 102, 113, 114

MUSIC – 104 (American Pop) 105 (All Styles), 108 (Jazz), 109 (Broadway),  
306 (Music for the Teacher)  
321/322 (Voice I/II), 323/324 (Piano Class), 325/326 (Guitar Class),  
360 (Cajun & Zydeco Music), 364 (Music of the World)

THEATRE – THEA 161, 261

VISUAL ARTS – VIAR 120, 121, 122

DSGN 121 (Survey of Design)

## **HISTORY ELECTIVES**

HISTORY - All courses except HIST 490

## **BEHAVIORAL SCIENCES ELECTIVES**

ANTHROPOLOGY – Any ANTH course.

CRIMINAL JUSTICE – Any CJUS course.

ECONOMICS - 201, 202, 300

GEOGRAPHY – Any GEOG course.

POLITICAL SCIENCE – Any POLS course.

PSYCHOLOGY – Any PSYC course.

SOCIOLOGY – Any SOCI course.

At least one of the two BHSC requirements MUST be at the 200-level or above.

## **NON-CREDIT COURSES**

No Computer Science major may receive credit for ANY of the following:

1. ACSK courses
2. ADOS, All courses except ADOS 420
3. BSAT 101, 205 (or INFX 205), 206, 306, 311, 321
4. BCOM All courses
5. INFX 101
6. ENGR 101
7. ITEC 100 & ITEC 101
8. MATH - No course that is a prerequisite to a required course: 92, 100, 103/104, 105, 107, 140, 143, 117, 201, 206, 210, 217, 250, 317, 470
9. Any KNEA courses beyond 4 credit hours
10. Any AMUS courses beyond 4 credit hours
11. QMET 251, 252, 450
12. STAT 214
13. HONR 110, 210, 310, 410

**\*Topics vary by semester**

## *Advising*

The Computer Science Department has established an advising structure that is supported by the Computer Science faculty and graduate students.

During the early advising period, you will be assigned to one of the faculty members by your last name. You may sign up with your advisor using the sign-up sheets in the CMPS Department office, Room 222.

After the early advising period, students will be advised by either setting up an appointment with their faculty member advisor, or by setting up an appointment with the department's graduate student advisor in Room 222G.

### **Appointments for Advising**

You must make an appointment with your assigned faculty advisor. Please refer to ULink to see who your faculty advisor is. During the early advising period, sign up for an advising appointment using the sign-up sheet in the CMPS Department office, Room 222.

### **Schedule of Classes**

The Schedule of Classes can be accessed online. Select the *Current Students Link*, then the *Schedules of Classes* link under the heading **Courses and Calendars**. Use information found in the schedule of classes to complete a trial schedule **before your appointment**.

Your advisor will clear your advising hold after you have completed an advising session with him/her.

### **Advantages of Early Registration**

Scheduling is not something that should be done at the last minute. Taking some time to choose your classes wisely will help you graduate on schedule and also improves your performance each semester by distributing the workload of difficult project courses.

### **Information about Courses and Curriculum**

**Prerequisite** – A prerequisite is an academic requirement which must be satisfied prior to enrolling in a course.

**Corequisite** – A corequisite is an academic requirement which must be satisfied concurrent with enrolling in a course. A student requesting a course must be currently enrolled in all corequisites listed for that course or must otherwise satisfy the instructor and the head of the department that he/she has had the equivalent preparation.

To obtain information about courses and the curriculum, consult the UL Lafayette catalog, the Computer Science Web Page (<http://www.louisiana.edu/Academic/Sciences/CMPS>), or this *Advising Handout*. These sources of information include the curriculum, the prerequisite structure of the computer science core, courses which may be chosen to fulfill the various degree requirements, regular fall and spring course offerings, and courses which do not count towards your degree.
